PETROLEUM MACHINERY AND TECHNICAL EQUIPMENT - L.L.C. - S.P.C.

COMPANY AT A GLANCE

HEAVY CAPABILITY. PRECISE EXECUTION.

PMTE is an Abu Dhabi-based contractor and service provider with more than three decades of operating history. Established in 1994, the company delivers demolition, excavation, earthworks, marine works, site preparation, waste transport, metal construction and oil and gas field support services.

Government and private-sector projects are supported by experienced teams, heavy machinery and project-specific equipment across Abu Dhabi, Al Ain, Madinat Zayed, Ghayathi, Mina Zayed and other locations in the UAE.

VISION

To be a trusted regional leader in safe, innovative and responsible demolition, construction support, marine and site-development solutions.

MISSION

To deliver reliable, high-quality services through capable people, fit-for-purpose equipment, disciplined execution and a strong commitment to safety, environmental responsibility and client satisfaction.

VALUES

Safety | Integrity | Reliability | Quality | Teamwork | Innovation | Environmental responsibility | Continuous improvement

CORE CAPABILITIES

ONE CONTRACTOR. MULTIPLE DISCIPLINES.

01

DEMOLITION & DECOMMISSIONING

Building and industrial demolition, controlled dismantling, concrete cutting, debris clearing and asset recovery.

02

EXCAVATION & EARTHWORKS

Bulk excavation, cut-and-fill, ground clearing, levelling, foundation excavation and general site preparation.

03

MARINE WORKS

Shoreline protection, underwater concrete removal, harbour works and onshore or offshore field support.

04

TRANSPORT & WASTE

Construction-waste transport, organic-waste transport, haulage, debris removal and disposal coordination.

05

CONSTRUCTION SUPPORT

Metal construction contracting, foundation digging, piling support and specialist field services.

06

TECHNICAL SUPPLY

Oilfield equipment and spare parts, e-gates, barriers, importing and commercial agency services.

SELECTED EXPERIENCE

DOCUMENTED WORK ACROSS THE UAE.

01

ADNEC - PHASES 1 TO 4

Multi-phase demolition, concrete breaking, structural removal and debris clearing.

06

SHORELINE ROCK ARRANGEMENT

Rock placement and arrangement for coastal protection and marine access.

02

MINA PLAZA - ABU DHABI

High-rise demolition support with documented before and during photography.

07

SAADIYAT BRIDGE WALL

Demolition and removal of an existing wall structure using heavy equipment.

03

KMART - ABU DHABI

Building demolition using heavy excavators and demolition attachments.

08

SAIF BIN DARWISH WAREHOUSE

Warehouse demolition and complete site-clearing works.

04

MINA ZAYED BUILDINGS

Removal, debris clearance, asphalt removal, ground preparation and levelling.

09

MADINAT ZAYED, GHAYATHI & AL AIN

Ground clearing, levelling and site-preparation works.

05

MINA ZAYED HARBOUR

Underwater removal of heavy concrete blocks using lifting arrangements.

10

AL AIN ZOO

Cut-and-fill, demolition, excavation and preparation across multiple work areas.

GUINNESS WORLD RECORDS ASSOCIATION

165.032

METRES

CONTROLLED DEMOLITION

PART OF A RECORD-SETTING PROJECT.

PMTE was named as an associated contractor on the Guinness World Records achievement for the tallest building demolished using explosives. The certificate records a height of 165.032 metres (541.44 feet) and identifies Modon Properties, in association with Petroleum Machinery and Technical Equipment Establishment, in Abu Dhabi on 27 November 2020.

ACHIEVEMENT

Tallest building demolished using explosives - Abu Dhabi - 27 November 2020

FLEET AND EQUIPMENT

READY TO MOBILISE.

The source company profile records more than 25 heavy vehicles and machines. PMTE combines core earthmoving assets with demolition attachments, lifting support, cutting equipment and transport resources.

EQUIPMENT CATEGORIES

- Excavators with demolition and earthmoving attachments
- Wheel loaders and graders
- Mobile cranes and lifting support
- Dump trucks and haulage vehicles
- Fuel tankers and trailers
- Concrete cutting and asphalt sawing equipment
- Marine and waterfront support equipment

HEALTH, SAFETY, ENVIRONMENT AND QUALITY

CONTROL THE RISK. PROTECT THE RESULT.

PMTE's documented approach is built around safe working conditions, equipment integrity, pollution prevention, legal compliance, workforce participation and continuous improvement.

01

SAFETY

- Protect employees, subcontractors, clients and the public
- Train and supervise teams
- Inspect and maintain equipment
- Report and investigate incidents

02

ENVIRONMENT

- Identify and control impacts
- Minimise pollution, waste and disruption
- Apply responsible waste handling
- Review environmental performance

03

QUALITY

- Meet agreed specifications
- Apply documented procedures
- Support continual improvement
- Focus on dependable delivery

SAFE PEOPLE | FIT EQUIPMENT | CONTROLLED EXECUTION

Project-specific plans and authority requirements are confirmed before mobilisation.

LICENCES AND REGULATORY CREDENTIALS

DOCUMENTED STATUS.
VERIFY BEFORE ISSUE.

The references and validity dates below were read from the supplied source portfolio. They should be revalidated before every formal submission or tender.
